FACULTY

President of Columbia University

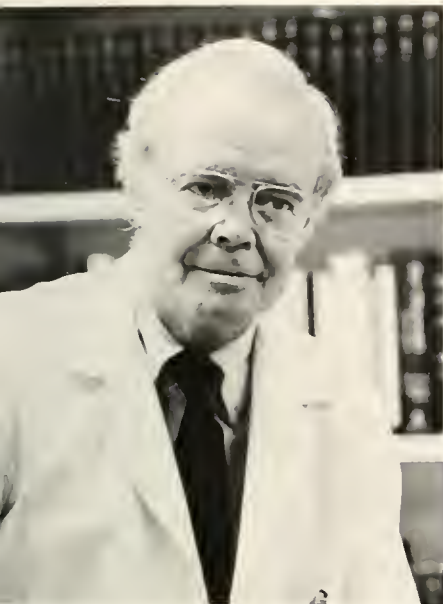

Michael I. Sovern,
L.L.B., L.L.D.

Vice President for Health Sciences and Dean of the Faculty of Medicine

Each one of you is to be congratulated for having completed strenuous, yet exciting years at P&S, truly one of the finest medical schools in the country. We have prepared you well for the future if we have taught you to expect and welcome change, to be prepared for current knowledge becoming obsolete, and to know how to keep up with progress and acquire new knowledge. Although not a part of the formal curriculum, I hope that you have found role models both in basic science and in clinical medicine. Basic Science succeeds by hard work, a flair for spotting the unusual, openness and scrupulous honesty. Clinical practice succeeds by always keeping up with science, making proven advances available to the patient, yet seeing each patient as a human being, entitled above all to compassion, dignity and respect.

Henrik H. Bendixen, M.D.

Donald F. Tapley, M.D.
**Alumni Professor and
 Senior Deputy Vice President
 for Health Sciences**

**Associate
 Dean
 for
 Student
 Affairs**

You entered the P&S Class of 1986 from 23 states including Idaho, Wyoming, Oklahoma and Indiana, plus the Commonwealth, District of Columbia, and several other countries, earnest, eager, enthusiastic, energetic and empathetic.

Exceptional excellence engaged exact endogeny, eugenics and ethics, while endoscopy evoked exploration, enclaves evolved exuberance, enigmas enchanted the existential, and erudite emulated the empyrean with exuberance, essence and esprit, earning the elitism of the College of Physicians and Surgeons. Earnestly I congratulate you.

Linda D. Lewis, M.D.

GRADUATES

The Hippocratic Oath

“You do solemnly swear, by whatever each of you holds most sacred

That you will be loyal to the Profession of Medicine and just and generous to its members

That you will lead your lives and practice your art in uprightness and honor

That into whatsoever house you enter, it shall be for the good of the sick to the utmost of your power, your holding yourselves far aloof from wrong, from corruption, from tempting of others to vice

That you will exercise your art solely for the cure of your patients, and will give no drug, perform no operations, for a criminal purpose, even if solicited, far less suggest it

That whatsoever you shall see or hear of the lives of your patients which is not fitting to be spoken, you will keep inviolably secret

These things you do swear. Let each of you bow the head in sign of acquiescence

And now, if you will be true to this, your oath, may prosperity and good repute be ever yours; the opposite, if you shall prove yourselves forsworn.”

President P&S Club

You can't depend on your eyes when your imagination is out of focus.

— Mark Twain

It has been my good fortune to have been involved in the P&S Club.

It gave me the opportunity to promote the expression of individual ideas and artistic talents, so vital in an environment where conformity is the norm.

And when the harsh realities of our work mirrored our own frailties, the Club became a place to seek warmth and reassurance in the many friendships we found there.

But now we leave it all behind — a new world awaits us . . .

GOOD LUCK, EVERYONE!

— *Eric Greenblatt*

President Class of 1986

I want to thank you for the honor of being Class President for the past three years.

At times it seemed as if we would never make it.

From jackets, ties and shorts on that first day of classes to Gershon's jellyrolls and elephant antics . . . from Ernie's colorful anecdotes to Glenda's first-day-of-Medicine pep talk ("a good is something to be proud of") . . . from Boards, applications and interviews, Public Health projects and Supernight to gowns at Graduation — we finally did make it!

It has been . . . an experience.

Good luck and take care,

— *Chris Rapuano*

The Bard Hall Players

The Bard Hall Players . . . The BHPs . . . a group that calls forth passionate loyalty and passionate scorn . . . a delightful bonus to the CPMC community . . . a self-centered drain on more important pursuits . . . fun . . . work . . . torment . . . joy.

Which is it? Obviously all of the above. People join for a host of reasons: to fill up empty social time in the Heights; to divert themselves from other, greater, pressures; to finally see what it's like 'while you've still got the chance'; to indulge dreams of a glamorous theatrical life before the footlights; to have fun. But like anything at CPMC, anything done by bright, hardworking — yes, driven — medical students (and

others), it is done to its fullest, with passion, with intensity. And it is always done in the spotlight. Anything done so fully and so visibly would have to get the strong responses the Players do. And just look at the following pages — you'll find nothing half done and all of it wide open, eagerly embracing anyone who will stop — for even a moment — to watch.

Fiddler on the Roof

Well — it all started with this one in the Fall of '82, with a Fiddler on the Roof luring some of us to another time, another place, for removed from the med school grind . . . No, not Anatevka, silly — The Bard Hall Players.

Steve Auerbach, voted Most Valuable Player, fall '82

Godspell

Godspell was the only musical to feature not only packed houses, but also the blizzard of the decade and two Acts of God.

As You Like It

The Bard came to Bard Hall with "As You Like It" a comedy of epic proportions, and a stage that set the stage for many innovations to come.

Once Upon A Mattress

Trip brought fantasy to life in Once Upon A Mattress, and populated the kingdom with what seemed to be the entire class of '86 — just look around!

Cabaret

Cabaret, the searing musical drama staged in the spring of '84, was notable for Noah's exploring hitherto unplumbed dramatic depths — mighty impressive.

Hair

"Be-In" was the concept for *Hair*, with every cast member playing an indispensable part of a multimedia trip back to the 60's. Steve A. was a pioneer backstage with his I-projector slide commentary, while the choreographed chaos was created by Rich and Terry. And though unsung, Neil injected new life into *Hair*'s free form direction and script.

Hot L Baltimore

Hot L Baltimore provided an opportunity for Steve A. and other nonmusical members of the group to take center stage — in Alumni Auditorium, of all places.

West Side Story

Then there's West Side Story — that's right, we finally did it — and with flair! Even Harlan couldn't resist taking a turn in front of the lights instead of behind them.

Anything Goes

Anything Goes and it certainly did, with Trip once again assuming navigational duties, Bill keeping the engine well stoked and running smoothly, and Mark L. exploring hitherto unscaled comedic heights.

And at press time, The Real Inspector Hound was to be seen doggedly pursuing a bit of unpleasantness at Muldoon Manor, and farther down the road Pippin was still searching for his corner of the sky.

And the show goes on . . .

P.R.O.B.E. WANTS YOU !!!

ARE YOU ONE OF THOSE PEOPLE WHO ARE REGULARLY OFFENDED BY EVERYTHING?
IF YOU ARE UNSURE, ANSWER THE FOLLOWING QUESTIONS :

QUESTION

1. DO YOU FIND ANY OF THE FOLLOWING ITEMS EROTIC: DOB, CAT, CADAVER ?
2. DO YOU LIKE HILLBILLYS ?
3. ARE YOU A HILLBILLY ?
4. DO THE CHANNEL 5 REERUNS OF THE BEVERLY HILLBILLYS SEND YOU INTO A TIZZY ?
5. DO YOU BRING MORONIC COMPLAINTS TO DEAN LEWIS ON A REGULAR BASIS ?
6. DO PEOPLE FROM OKLAHOMA OFFEND YOU ?
7. DOES YOUR MOUTH FOAM LIKE THAT OF A MABIO DOB AT THE MENTION OF 42 RD ST.?
8. IF MALE, ARE YOU A WIMP? (DO YOU WEIGH LESS THAN 110 LBS. SOAKING WET ON JUPITER?)
9. DO YOU HAVE A FIRM GRASP OF THE FOLLOWING CONCEPTS: RESPECT, EQUALITY, AND DECEYCY ?
10. DO YOU FIND ANY OF THE ABOVE QUESTIONS OFFENSIVE ?

IF YOU HAVE ANSWERED YES TO ANY OF THE ABOVE QUESTIONS, OR EVEN CONSIDERED AN
AFFIRMATIVE ANSWER PLAUSIBLE. P.R.O.B.E. WANTS YOU.
THERE WILL BE A MEETING ON FRIDAY ON THE 10TH FLOOR OF BABY'S HOSPITAL.
(IN THE HURSEY, OFCOURSE. CRYING AND WHINING ARE ENCOURAGED !)

CHOWDERS

(CRETINS WHO DENY EVERYTHING REASONABLE AND SANE)

- 1) Are you more comfortable with comic books than with medical books?
- 2) Do you make wild stabs at humor---only to land up stabbing yourself?
- 3) Do you often find your foot in your mouth---only to discover that it tastes good?
- 4) When people step all over you and do your thinking for you---do you experience an acute sense of relief that you don't have to think for yourself?

IF YOU CAN ANSWER "YES" TO ANY OF THESE QUESTIONS OR IF SOMEONE MUST
ANSWER "YES" FOR YOU---THEN BECOME A "CHOWDER"....(on second thought
you already have!!!!!!)

P.S. If this offends you try PROBE---memberships are still available.

From: The Czar
 To : The People

As we are entering the home stretch, I would like to call your attention to the current state of the transcript service. It is with sadness that I have watched the progressive disintegration of order. A day doesn't go by wherein I don't have to correct for someone's negligence of responsibility.

At the risk of alienating the entire dental class, I must say that it is with you that I have had by far the most difficulty. The transcript service was initiated by medical students, but we have opened our doors to anyone who wants to participate. We expect nothing more or less from you than from ourselves -- each individual meets the responsibility of transcribing once and editing once. Because you may not feel the same stake in things as we do does not mean that you can shirk your duty.

I don't want to see any more of last year's transcripts xeroxed with the date crossed out. (Some of you never bothered to listen to the tape and what was on paper bore no resemblance to the lecture.) Also, when a transcript is returned by the editor because it is unsatisfactory, do not compound your improper action with a hostile denial to do the job right.

We have tried to accommodate you as best we can -- no commuters near the weekend, scheduling to avoid some of the conflicts and personality problems of last semester, and so on. Some of you had 10 days to get the job done, and still come late with the excuse that religious holidays got in the way. The schedule is posted well in advance, so that things can easily be worked out ahead of time to avoid a conflict if one exists.

Obviously, these problems apply in part to the medical class as well. They also don't occur with the majority of dental students, so I don't want this to seem a blanket statement about everyone. Yet these occurrences seem to be increasing as we draw near to the end of the semester, at a time we can ill afford, and hence will not be tolerated.

For these last couple of weeks, Scott Estabrook is the trouble shooter. You should already know if you will be on during this period, so whether or not he gets in touch with you to remind you is no excuse. If you foresee a problem, let him know as soon as you know, and we'll work something out. Transcribers, know your editors, and vice-versa. These last weeks are important, I want to see the same enthusiasm and dedication as there was at the beginning of the semester.

We have 165 class-pages left until the money runs out. That means, be brief. Some of those pages will go to printing old exams, which doesn't leave much. And if anyone is concerned about my using a page up to throw a fit, this one I paid for.

-Dave

Second Year Self-Assessment Exam

The following was prepared to test your mastery of the essential information presented during our second year at IUS. Remember this exam will stress general concepts, not specific facts. Sorry, but the proctors are not allowed to answer any questions. Good luck.

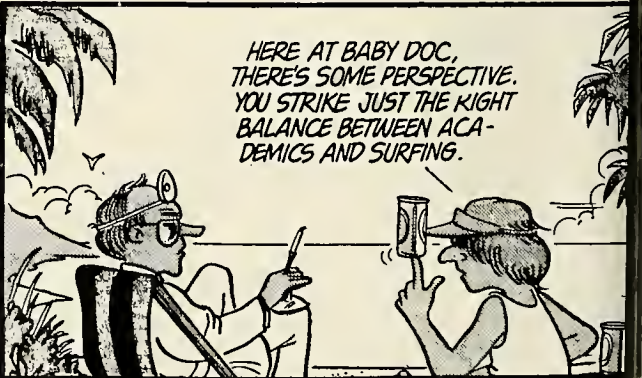

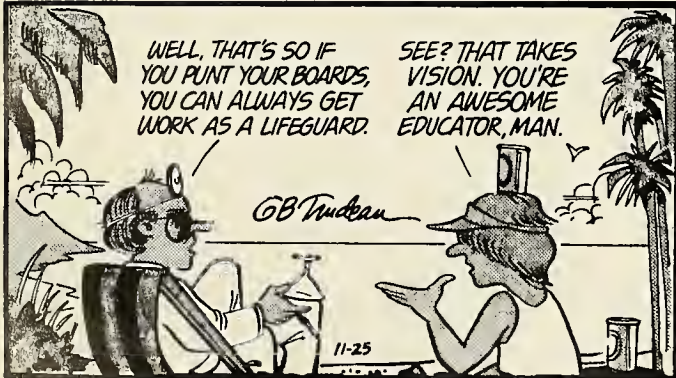

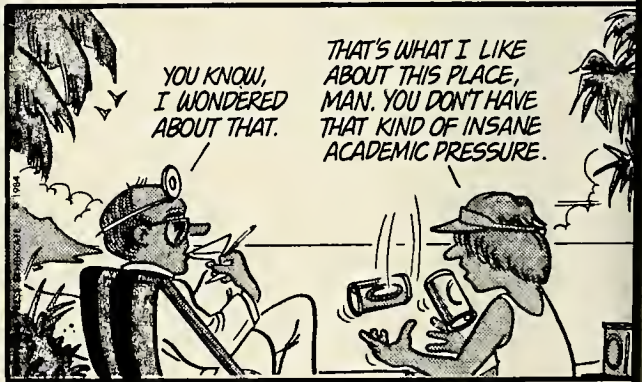

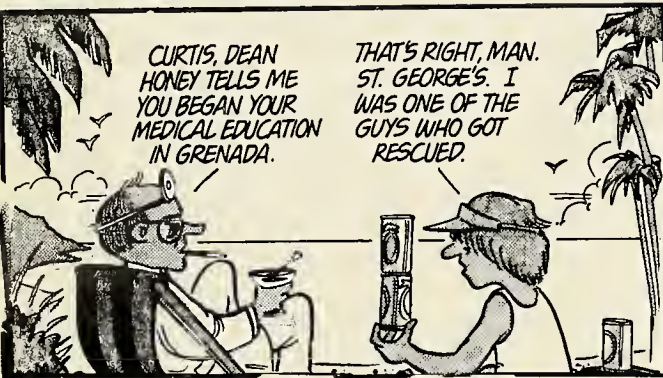

- Which of the following are included in the DSM-III diagnostic criteria for schizophrenia?
 - intense eosinophilia
 - delusions of Ramon y Cajal
 - lupus
 - Going to CPC's on Tuesday afternoons.
 - fused foot processes
 - How can you tell that you have become a successful doctor?
 - Your colleagues refer their family members to you.
 - Dr. Canfield refers his family members to you.
 - Dr. Canfield refers his secretary to you.
 - Your secretary follows you wherever you go.
 - Dr. Canfield's secretary follows you wherever you go.
 - What disease is found predominantly in homosexual, Puerto Rican, Ashkenazi Jewish IV drug abusers from the Cayman Islands?
 - Are Mel Moss and Norman Kahn really the same person?
 - Should you eat raw pork?
 - Should you say "stirrups" or "foot supports"?
 - In light of what you've learned in second year, is it possible to get a net synthesis of glucose from acetyl CoA?
- (B-1D) Either of the two statements in each sentence may quite possibly be true, or in some cases, also relatively false, and if they are, and the ESR is elevated, they may be related (on their mother's side) as to cause and effect. For each pair of statements choose one of the following:

Answer	1st Statement	2nd Statement	Related
A	definitely true	bugus	Sure, why not?
B	probably true	wasn't in the syllabus	-----
C	cosmic	makes no sense	consanguinous
D	poorly worded	ridiculous	very
E	autoimmune	bourgeois	if the shoe fits..

- There are 184,293 diseases associated with HLA-B27 BECAUSE climate is weather and mood is affect.
- Birth is usually preceded by pregnancy BECAUSE Sjögren and Chvostek are first cousins.
- Given the slight chance that sodium gates actually do exist, the slow inward lithium current is much faster than the slow outward neon current BECAUSE the only cure for pseudopseudohypoparathyroidism is an anti-antidiuretic.
- Which of the following may be found at the Bronx Zoo?
 - Hippocampus
 - Lyonization
 - Rhinorrhea
 - Salmonella
 - Giardia lamblia
- A.H.B., a 46 year old white male, presents in the ER with nausea, vomiting, severe bifrontal headache, nuchal rigidity, a temperature of 104°, enough cells and protein in his CSF to choke a horse, and a couple of positive signs. The following tests were performed: AFL, CID, FPR, RSVP, IUD, IDU, and ET (phone home). All were within normal limits except the RSVP, however Dr. Gambino enclosed a personal note warning, "DON'T trust the plasma RSVP!!". As the intern on duty you should:
 - Construct a complete pedigree.
 - Perform a needle brain biopsy.
 - Finish your lunch.
 - He's faking. Send the malingeringer home.
 - Immediately start the patient on thiazide diuretics, but only after thoroughly and clearly explaining their mechanism of action.
- Which of the following is suspected of having an autoimmune etiology?
 - Suicide
 - Compulsive "hul"-ing
 - World War II
 - Going to dental school
 - 50% of all diseases known to medical science (but we don't know which 50%)
- Who wrote this trash?
 - Edinger & Westphal
 - Goodman, Gilman, & Goodman-Gilman
 - Warten & Friend
 - Ethics & Values
 - Laurence, Moon, & Biedle
 - None of the above
 - All of the above

Graduate Medical Education at Overlook Hospital

A major teaching affiliate of the Columbia University
College of Physicians and Surgeons

Overlook, known for its progressive leadership and sound medical practice, is considered one of the nation's foremost community hospitals.

A voluntary, non-profit health care center, Overlook provides extensive modern facilities, including 551 beds and 50 bassinets. More than 2,600 employees and a medical staff of 550 offer a broad spectrum of educational and medical-surgical services.

At Overlook, quality patient care has been a tradition for more than 75 years. We emphasize the training of primary physicians. Approved residency programs are offered in: Dentistry; Diagnostic Radiology; Emergency Medicine; Family Practice; Internal Medicine; Pediatrics; and a Transitional First Year.

For information about residency programs at Overlook, contact the Department of Medical Education, 193 Morris Avenue, Summit, New Jersey, 07901, or call (201) 522-2085.

Overlook Hospital

Overlook also offers affiliated programs with Columbia Presbyterian Medical Center and St. Vincent's Hospital and Medical Center, New York City, in General Surgery, Urology and Obstetrics-Gynecology. Program directors are outstanding physicians, all Board-certified specialists in their respective fields.

At Overlook the administrative and medical staff constantly evaluate new concepts in the delivery of health care, never losing sight of the individual, human needs of the patient and the family. It is this commitment to excellence in family-centered care that has earned Overlook its outstanding reputation.

CONGRATULATIONS TO THE CLASS OF 1986

Now that you're starting out in your medical career, you'll be spending so much time examining the health of others, you may not have time to examine the state of your own finances. So while you're helping your patients keep physically fit, our goal is to keep you fiscally fit.

As a student, you've had the benefits of Chemical's free checking and a ChemBankcard. As a recent graduate, you're also invited to take advantage of Chemical's free financial counseling as well as financial planning seminars specially designed for health care professionals.

It's Chemical's way of not only wishing you career success, but of ensuring your financial success, too.
